## Star Custom Accessory Windshields

Our tough polycarbonate windshields not only offer the superior fit and finish you would expect, we went a step further by treating them with the new-generation Quantum™ Coating to provide a long lasting, durable, protective finish. This makes the windscreen three times more scratch-resistant than typical acrylic products, and also much more resistant to damage from bugs, stone chips, road grime, or even everyday cleaning. This extra attention to detail will help keep your windshield looking new longer, and that's a clear benefit you'll enjoy on every ride.

### 1. Windshields

Available in three heights\*\*. Medium is the same height as Stratoliner. The unique quick-release feature allows for quick change of your windshield before riding, due to a change in weather or attitude. For added security, install the lock kit (STR-2C590-10-00). Windshield mounts (STR-2C503-40-00), the same as those used on the Stratoliner, are required on Roadliner models. Windshield mounts and lock kits sold separately.

## JEFF PALHEGYI SIGNATURE SERIES - custom accessories from one of today's top bike builders

Bike builder Jeff Palhegyi is the architect of many of the most admired customized Star motorcycles ever crafted. His creative work has appeared in top motorcycle shows and has been frequently featured in Custom Star calendars. Those lucky enough to own a motorcycle from Palhegyi Designs

can count on attracting plenty of attention. Palhegyi's talent and creative vision have earned him recognition as one of the world's top custom bike designers. His artistry has been acknowledged in over 40 articles in national magazines, and he has made many TV appearances, including documentaries on SPEED TV (“V-Twin TV” and “Epic Rides”). Palhegyi customs have also been showcased in the IMS Tour in the United States, the Tokyo Motor Show in Japan, and the INTERMOT® and Milan shows in Europe.

These accessories fit all Raider models unless otherwise noted.

## 1. Quick-Release Windshield

Made of tough 4.5mm polycarbonate treated with the new-generation Quantum™ Coating to provide a long lasting, durable, protective finish. This makes the windscreen three times more scratch-resistant than typical acrylic products, and also much more resistant to damage from bugs, stone chips, road grime, or even everyday cleaning. This extra attention to detail will help keep your windshield looking new longer, and that's a clear benefit you'll enjoy on every ride.

Available in two heights\*\*. The unique quick release feature allows you to quickly change your windshield before riding due to a change in weather or attitude. A lock is included for added security. Replacement windscreens are also available. Quick Release Windshield Mounts (STR-5C703-41-00) are required for installation, sold separately.

Tall Windshield (19"\*\*)

Short Replacement Windshield

**STR-5C706-11-00** \$123.95

## 2. Quick-Release Windshield Mounts

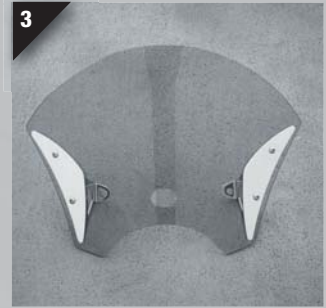

These quick release mounts allow you to easily change out your accessory windshield. Required for installation of Quick Release Windshield (Tall or Short), sold separately.

**STR-5C703-41-00** \$149.95

## 3. Boulevard™ Windshield

This 10-3/4" high\*\* windscreen is made of tough 4.5mm polycarbonate with new generation Quantum™ Coating. Smoked shield and chrome-plated trim provides unique styling and deflects wind from your chest area. Includes polished stainless steel mounting hardware.

**STR-5C705-30-00** \$179.95

## 4. Passing Lamps

Totally unique design. These passing lamps have 35-watt halogen bulbs and incorporate DOT-approved LED turn signals/marker lights, eliminating the stock turn signals. The mounting system allows for easy adjustment and wiring into an integrated wire harness. Passing Lamp Mounts (STR-5C735-40-00) required for installation, sold separately.

**STR-5C735-10-00** \$261.95

## 5. Chrome Engine Guards

1" diameter polished and chrome plated tubing designed to match the Raider's wild style.

**STR-5C731-10-00** \$236.95

## 6. Billet Rear Fender Rack

This billet rear fender rack is made of 6061 machined billet aluminum then polished and chrome-plated. Works with either the stock solo or Comfort Cruise seats. Requires removal of passenger seat.

**STR-5C751-40-00** \$166.95

## 7. Rear Luggage Rack

This billet luggage rack is designed to be used with the accessory passenger backrest components.

**STR-5C751-30-00** \$144.95

\*\*Height measured from top of headlight cutout to top of windshield.

### 8. Speedstar® Staggered Long Drag Exhaust

Designed to maximize exhaust flow for increased performance with more mid-range torque and overall power. This system features 1-3/4" header pipe with 2-3/8" full-coverage heat shields. Heat shields are constructed of heavy-gauge steel then polished and richly chrome-plated for an extra-durable, shiny finish. Baffles are non-removable. Comes with mounting bracket and hardware.

**SPD-5C709-90-02** \$797.95

*For closed-course use only (see Important Note below)*

### 9. Custom Cover

This unique and versatile cover accommodates a fully accessorized Raider while maintaining a custom-fit look. The top half uses premium Evolution® 4 fabric that is breathable, water repellent and UV-resistant. Incorporates an expandable backrest pocket. The bottom half is constructed of duck canvas for heat protection against exhaust pipes. Both materials provide excellent outdoor protection. (Not recommended for trailering.)

**STR-5C728-00-00** \$144.95

#### IMPORTANT NOTE:

*All Star models are regulated by the EPA and state law. This accessory affects exhaust emissions and is for closed-course competition only. Use on public roads constitutes illegal tampering punishable by law.*

These accessories fit all Raider models unless otherwise noted.

### Star Custom Accessory Windshields

Our tough 4.5mm-thick polycarbonate windshields not only offer the superior fit and finish you would expect, we went a step further by treating them with the new-generation Quantum™ Coating to provide a long lasting, durable, protective finish. This makes the windscreen three times more scratch-resistant than typical acrylic products, and also much more resistant to damage from bugs, stone chips, road grime, or even everyday cleaning. This extra attention to detail will help keep your windshield looking new longer, and that's a clear benefit you'll enjoy on every ride.

## Star Custom Accessory Windshields

Our tough polycarbonate windshields not only offer the superior fit and finish you would expect, we went a step further by treating them with the new-generation Quantum™ Coating to provide a long lasting, durable, protective finish.

### 1. Quick-Release Wide Windshields

These “fat” screens are 3 inches wider than the standard Silverado windshield. The unique, patented quick-release feature lets you match a change in weather or attitude before you ride. A lock is included for added security. Windshield mounts (STR-5VN03-40-00) required on Road Star models. Windshield mounts sold separately.

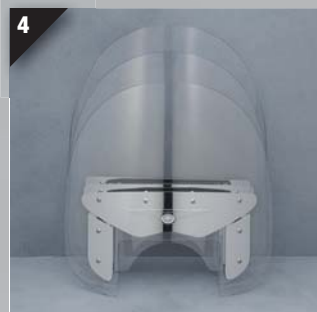

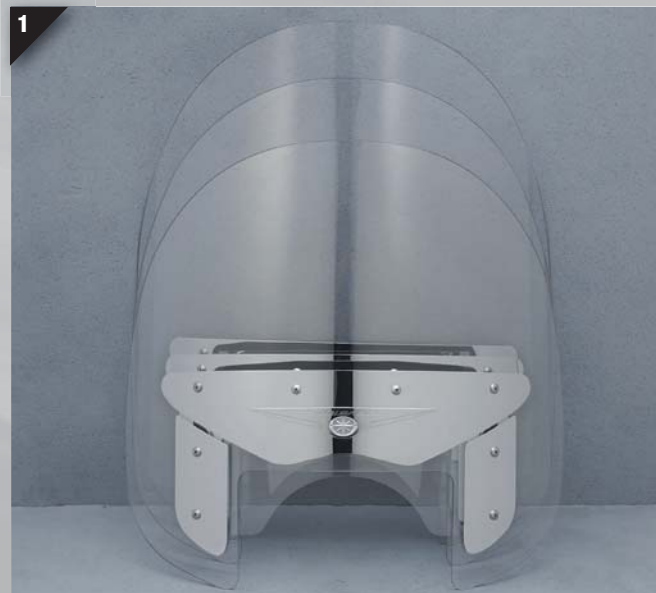

**NOTE: If switching from standard width to wide width replacement windshield, cable guide (STR-5VN03-22-00) required for installation.**

## Star Custom Accessory Windshields

Our tough polycarbonate windshields not only offer the superior fit and finish you would expect, we went a step further by treating them with the new-generation Quantum™ Coating to provide a long lasting, durable, protective finish. This makes the windscreen three times more scratch-resistant than typical acrylic products, and also much more resistant to damage from bugs, stone chips, road grime, or even everyday cleaning. This extra attention to detail will help keep your windshield looking new longer, and that's a clear benefit you'll enjoy on every ride.

### 1. Tour Classic® Windshields

The Tour Classic Windshield assembly is the same height as the one on the Tour Deluxe model. Replacement windshields are available in Tall, Medium, and Low heights and can be easily mounted onto any of the windshield assemblies for changes in weather or altitude. All windshield assemblies will bolt directly onto the Tour Deluxe and Tour Classic models or the standard Royal Star with mounting hardware.

## Star Custom Accessory Windshields

Star Custom Accessories offer advantages and features that add to their value. Our windshields, for example, not only offer the superior fit and finish you would expect, we went a step further by using a hard-coated polycarbonate windscreen material. This makes the windscreen three times more scratch-resistant than typical acrylic products, and also much more resistant to damage from bugs, stone chips, road grime, or even everyday cleaning. This extra attention to detail will help keep your windshield looking new longer, and that's a clear benefit you'll enjoy on every ride.

### 1. Windshield Assembly

Windshield assemblies are available in three heights\*\*: Tall (23-1/4" the same height as the standard Tourer), Medium (19") and Short (15"). Replacement windshields are also available in Tall, Medium, and Short height, making it easy to change your windshield to match changes in weather or attitude. All windshield assemblies will bolt directly onto the Tourer model or, with Windshield Mounts, onto the standard V Star 1300.

## JEFF PALHEGYI SIGNATURE SERIES - custom accessories from one of today's top bike builders

Bike builder Jeff Palhegyi is the architect of many of the most admired customized Star motorcycles ever crafted. His creative work has appeared in top motorcycle shows and has been frequently featured in Custom Star calendars. Those lucky enough to own a motorcycle from Palhegyi Designs can count on attracting plenty of attention. Palhegyi's talent and creative vision have earned him recognition as one of the world's top custom bike designers. His artistry has been acknowledged in over 40 articles in national magazines, and he has made many TV appearances, including documentaries on SPEED TV ("V-Twin TV" and "Epic Rides"). Palhegyi customs have also been showcased in the IMS Tour in the United States, the Tokyo Motor Show in Japan, and the INTERMOT® and Milan shows in Europe.

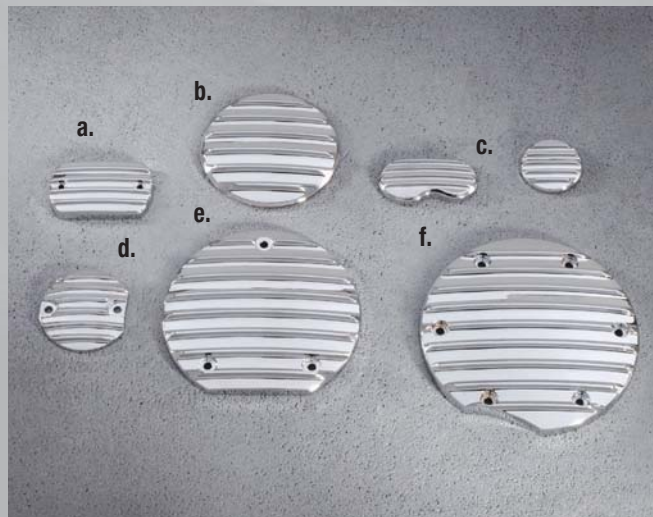

### Custom "Bomber" Components

Jeff Palhegyi has designed these custom Bomber-series components exclusively for Star Motorcycles. Bomber covers are available either polished and plated to a show-quality chrome finish or in the "Midnight" collection for a blacked-out look detailed with brushed fin edges. Bomber components have a coordinated look to give your V Star 950 a true custom look.

### Star Custom Accessory Windshields

Our tough polycarbonate windshields not only offer the superior fit and finish you would expect, we went a step further by treating them with the new-generation Quantum™ Coating to provide a long lasting, durable, protective finish. This makes the windscreen three times more scratch-resistant than typical acrylic products, and also much more resistant to damage from bugs, stone chips, road grime, or even everyday cleaning. This extra attention to detail will help keep your windshield looking new longer, and that's a clear benefit you'll enjoy on every ride.

Road Star shown with Star Custom Accessories, aftermarket accessories, and custom paint.

Yamaha is a name already known around the world for race-winning performance. Building on that name, Star Custom Accessories has an exceptional line of competition parts for our Star motorcycles: Speedstar. Speedstar products benefit from our history of engineering advances and our reputation for quality and workmanship, giving the racing enthusiast an edge.

Speedstar components have been precision-made to Star Motorcycles exacting standards so they fit right and give you a level of power and performance previously unavailable. To enjoy your Speedstar products to the fullest, be aware of any laws that might affect your use of these modifications as well as all requirements of the sanctioning organization for competition use. Also remember that modified motorcycles may need a higher level of maintenance to perform to the fullest.

### Performance Stages

Speedstar Competition Products are designed to work together in particular configurations, or stages, with each higher number stage providing a greater performance increase over stock. Speedstar products have been tested under controlled conditions in the specific stage configurations listed on the following pages. Using Speedstar components in configurations other than one of the specified stages can have a negative effect on the performance of your motorcycle and may even be harmful to the engine.

### Speedstar Limited Warranty Information

Speedstar components are covered by a 30-day limited warranty against defects in material or workmanship. Labor for replacement of defective components is not covered. The Star Motorcycles Limited Warranty provided with new Star motorcycles has exclusions for certain failures, including those caused by competition or racing use as well as by abnormal strain or abuse. While installation of these Speedstar Competition components will not "void" your motorcycle's warranty, specific failures determined by Yamaha to have resulted from the installation of kit components or other modifications, or from competition use may not be covered by warranty or extended service coverage.

Speedstar components are designed to be used together as a complete system as shown. Creating a combination not specified can adversely affect the performance of your motorcycle and may even be harmful to the engine. Components which affect emissions are for closed-course race application only.

### Caution:

- Speedstar engine-related competition parts are intended for closed-course racing applications only.
- All Star models are regulated by the EPA and state law. An alteration of emission-related components constitutes tampering under Federal and State laws and can lead to substantial fines and penalties if used other than in closed-course competition.
- Speedstar performance components are designed to be used as a complete system. Creating a combination not specified or tested can adversely affect the performance of your motorcycle and may even be harmful to the engine.
- Installation of Speedstar performance components requires extensive mechanical and tuning knowledge of 4-stroke motorcycle engines. A professionally trained motorcycle mechanic should install components and do any necessary tuning.
- Modified motorcycles may require premium unleaded fuel with a pump octane rating [R+M/2] of 91 or higher. Lower octane fuel can cause knocking and can result in engine damage (read installation instructions carefully for fuel requirements).

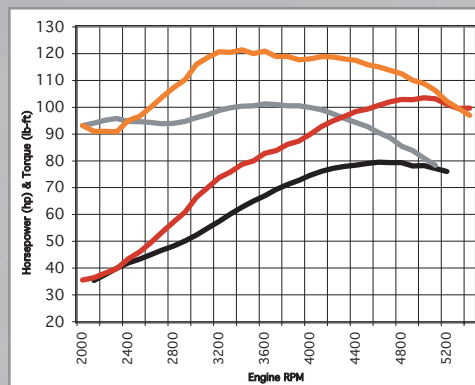

### Performance Charts

Performance charts have been included to provide you with helpful information on each Speedstar Competition stage configuration. Each chart contains the following:

- Horsepower in stock configuration
- Horsepower in stage configuration
- Torque in stock configuration
- Torque in stage configuration

Understanding the differences between torque and horsepower is important. Torque is essential to generating movement. It is what makes initial movement possible. Horsepower is important to continual motion. It is what keeps you moving.

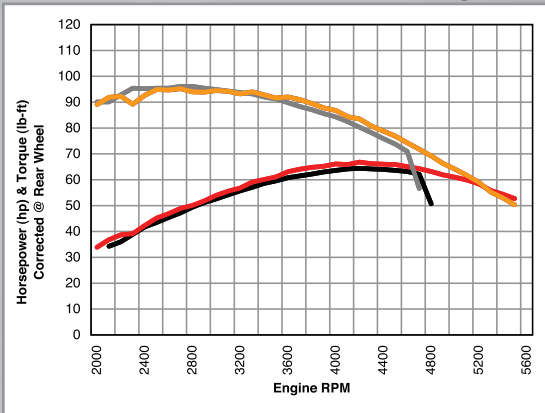

### Road Star Warrior - Stock vs. Stage IV

(Results Include a free-breathing 2-into-1 exhaust system)

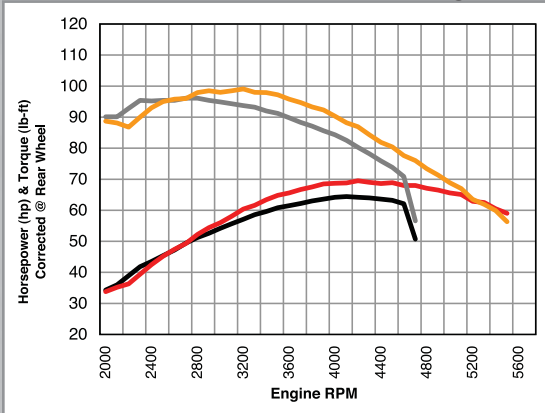

**NOTE:** Corrected torque and horsepower were measured at the rear wheel on a Dynojet® Dynamometer. Your results may vary.

## 4. Competition Stage IV ECU

Stage IV Performance ECU (ignition module) offers an optimized fuel/ignition map to work with the higher compression ratio, increased airflow intake, and free-breathing exhaust system. Raises maximum rpm limit to 5500 rpm.

*For closed-course race application only (see Important Note below).*

Fits '02~'09 Warrior  
**SPD-5PX09-50-04** \$621.95

## Speedstar Competition Parts for Warrior

(Sold individually)

## 2. Competition Velocity Stack Set

Billet two-piece Velocity Stacks offer the best airflow for the ultimate in performance and power output. Includes pre-filters for limited air filtration.

*For closed-course race application only (see Important Note below).*

Fits '02~'09 Warrior  
**SPD-5PX09-76-10** \$246.95

## 5. Competition High Flow Fuel Injector Set

High-capacity fuel injectors (40% increase over stock) are designed to work with high-lift camshafts and the increased airflow. Fuel pressure regulator decreases fuel pressure by 20% from stock.

*For closed-course race application only (see Important Note below).*

Fits '02~'09 Warrior  
**SPD-5PX09-46-00** \$621.95

## 6. Competition High-Compression Forged Piston Set

These 10.2:1 forged pistons are designed to work with high-lift camshafts. Only 18 grams heavier than stock so no crank re-balancing is necessary. Includes stock rings, pins and clips.

*For closed-course race application only (see Important Note below).*

Fits '02~'09 Warrior  
**SPD-5PX09-60-20** \$374.95

### 7. Competition Clutch Spring

The spring rate is 20% stiffer than the stock spring for increased clutch capacity. Reduces clutch slippage and resultant heat build-up under heavy use. Designed to handle increased power output from Stage IV configuration.

Fits '02~'09 Warrior  
SPD-5PX09-84-00 \$123.95

### 8. Competition Valve Spring Set

Designed to accommodate higher lift camshafts (up to 9.3mm lift) and up to 5500 rpm. Seat pressure is increased by 20% over stock.

Fits '02~'09 Warrior  
SPD-5PX09-14-10 \$257.95

### Competition Stage IV Gasket Kit

(Not shown)

Complete kit of gaskets necessary for installation of Stage IV components.

Fits '02~'09 Warrior  
SPD-5PX09-59-04 \$86.95

### 9. Competition Camshaft Set

Includes both front and rear cams. Offers increased mid-range and top-end power from 3200 rpm up. Produces peak horsepower around 5500 rpm. Must use Competition Valve Springs with these camshafts. Uses the stock decompression mechanism for easy starting, yet higher performance.

*For closed-course race application only (see Important Note below).*  
Fits '02~'09 Warrior  
IQG-00094-73-20 \$521.99

## 1. Competition Carburetor Jet Kit

A premium race tuner's Jet Kit for the stock carburetor. Includes all OEM Mikuni® jets (4 mains and 2 pilots) and a specially designed titanium needle. Necessary for tuning with free-breathing intake and exhaust systems.

*For closed-course race application only (see Important Note below).*

Fits '99~'07 Road Star models

SPD-4WM09-49-10 \$53.95

## 2. Competition Ignition Module

This module increases the rev limit to 5500 rpm and provides increased spark energy to optimize the performance of all Speedstar kits.

*For closed-course race application only (see Important Note below).*

Fits '99~'07 Road Star models

SPD-4WM09-50-03 \$321.95

## Speedstar Competition Air Filter

Provides increased airflow and performance. Works with stock plastic mount or Competition Billet Air Filter Backplate. Features washable high-flow K&N® air filter element, and chrome-plated billet cover. Includes all mounting hardware. Choose from several cover designs.

## 3. Speedstar Competition Air Filter with Speedstar Cover

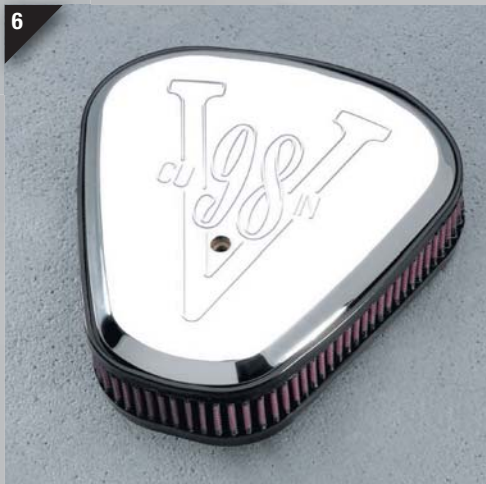

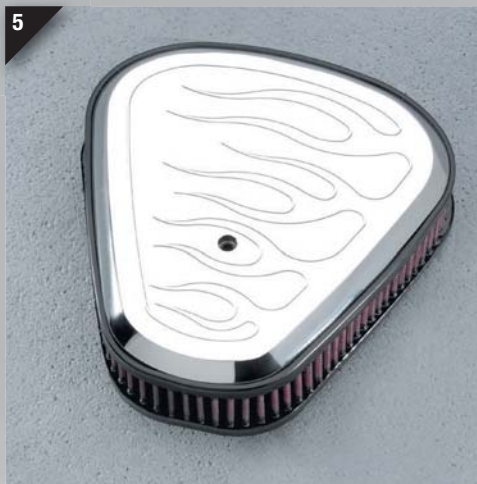

Fits '99~'07 Road Star models

SPD-5VN09-47-05 \$182.95

## 4. Speedstar Competition Air Filter with Ball Milled Cover

Fits '99~'07 Road Star models

SPD-5VN09-47-02 \$182.95

## 5. Speedstar Competition Air Filter with Flamed Cover

Fits '99~'07 Road Star models

SPD-5VN09-47-04 \$182.95

## 6. Speedstar Competition Air Filter with "V 98 cu. in." Cover

Fits '99~'03 Road Star models

SPD-4WM09-47-03 \$182.95

## 7. Speedstar Competition Air Filter with "V 102 cu. in." Cover

Fits '04~'10 Road Star models  
SPD-5VN09-47-07 \$205.95

## 8. Replacement Competition Air Filter

Washable high-flow K&N® air filter; same as filter supplied in Air Filter kits.

Fits '99~'10 Road Star models using Speedstar Competition Air Filter  
SPD-4WM09-47-F2 \$65.95

## 9. Competition Billet Air Filter Backplate

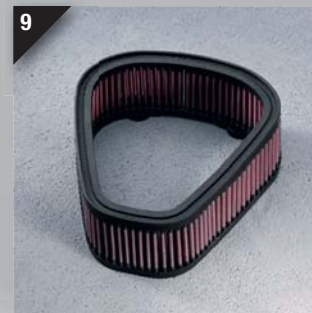

Precision machined from 6061-T6 Billet Aluminum and black anodized. Designed to work with the Mikuni® HSR carburetors. Moves the air filter element 1 inch closer to the center of the bike to allow for more rider comfort.

Fits '99~'07 Road Star models using Speedstar Competition Air Filter  
SPD-4WM09-47-00 \$169.95

## 10. Competition Tall Air Filter

Performance upgrade for the Speedstar Competition Air Filter. Doubles the filter area for more air-flow to provide a 1.5 hp increase in peak power. Use with the Speedstar Competition Air Filter's billet cover. The Competition Billet Air Filter Backplate (SPD-4WM09-47-00) is highly recommended.

Fits '99~'07 Road Star models using Speedstar Competition Air Filter  
SPD-4WM09-48-00 \$86.95

## 10. Competition Long Drag Pipes

Designed to maximize exhaust flow for increased performance, with more mid-range torque and higher overall power. This system features 1-3/4" header pipe with 2-1/2" heat shields. Heat shields are constructed of heavy-gauge steel, and then are polished and richly chrome-plated for an extra durable, shiny finish. Baffles are non-removable. Comes complete with mounting bracket and hardware.

*For closed-course race application only (see Important Note below).*

Fits '08~'10 Road Star models  
SPD-5VN09-90-03 \$618.95  
Fits '99~'07 Road Star models  
SPD-5VN09-90-02 \$480.95

## 11. Competition Mikuni® HSR Flatslide Carburetion

Exceptional throttle response and drivability. Works with stock throttle cables. Includes all mounting brackets and additional jets to tune for optimal performance at the track.

*For closed-course race application only (see Important Note below).*

Fits '99~'07 Road Star models.

### 42mm

Designed and jetted to work with Stage III configuration.  
SPD-4WM09-42-01 \$443.95

### 45mm

Designed and jetted to work with Stage IV configuration.  
SPD-4WM09-45-01 \$503.95

Speedstar components are designed to be used together as a complete system as shown. Creating a combination not specified can adversely affect the performance of your motorcycle and may even be harmful to the engine.

### 1. Road Star Power Commander® by Dynojet® Research, Inc.

This Power Commander® plugs in-line with your Road Star's stock fuel injection system. It uses the stock style connectors, making installation easy and quick. Comes preloaded with recommended maps for four different configurations ready to install from the CD included in the package. The PCIII USB allows a full range of fuel adjustments. Adjustments can be made with either a Windows-based computer or by using the faceplate-mounted button adjusters. No permanent changes are made to the bike's system. Once the unit is removed, the bike reverts to its stock settings.

*For closed-course race application only (see Important Note below).*

Fits '08~'10 Road Star models  
**SPD-5VN09-52-00**     \$354.95

### 2. Throttle Body

This new 45mm throttle body maximizes performance gains when used with Speedstar high-compression forged pistons and competition forged pistons and competition camshaft sets. Requires the use of Competition High-Flow Intake Manifold (SPD-5VN09-74-10). Recommend for use with modified engines.

*For closed-course race application only (see Important Note below).*

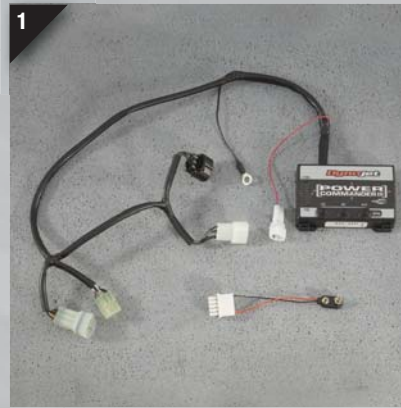

Fits '08~'10 Road Star models  
**SPD-5VN09-44-00**     \$854.95

### 3. Competition High-Compression Forged Piston Set

These 10.25:1 forged pistons come with deeper valve pockets to work with high-lift camshafts. Only 2 grams heavier than stock, so no crank re-balancing is necessary. Special rings are included to work with chrome bore. Also includes pins and clips.

*For closed-course race application only (see Important Note below).*

Fits '04~'10 Road Star models  
**SPD-5PX09-60-20**     \$374.95  
 Fits '99~'03 Road Star models  
**SPD-4WM09-60-10**     \$374.95

#### 4. Competition High-Flow Intake Manifold

a. High-flow intake manifold. Requires the use of Throttle Body (SPD-5VN09-44-00).

*For closed-course race application only (see Important Note below).*

Fits '08~'10 Road Star models  
**SPD-5VN09-74-10**     \$366.95

b. High-flow intake manifold designed to work with either the 42mm or 45mm HSR Flatslide Carburetor and CNC-Ported Cylinder Heads. Molded of rubber with steel insert like original equipment to allow for engine vibration and thermal expansion. Flow is increased over the stock manifold.

*For closed-course race application only (see Important Note below).*

Fits '04~'07 Road Star models  
**SPD-5VN09-74-00**     \$139.95  
Fits '99~'03 Road Star models  
**SPD-4WM09-74-00**     \$125.95

#### 5. Competition Camshaft Set

Includes both front and rear billet cams made from billet for exceptional durability, which uses the stock decompression mechanism for easy starting, yet high performance. Offers increased mid-range and top-end power from 3200 rpm up. Produces peak horsepower around 5500 rpm.

Fits '04~'10 Road Star models  
**IQG-00094-73-20**     \$521.99  
Must use Competition Dual Valve Springs with these camshafts.

Speedstar components are designed to be used together as a complete system as shown. Creating a combination not specified can adversely affect the performance of your motorcycle and may even be harmful to the engine.

## 1. Competition Dual Valve Spring Set

Designed to accommodate cams up to 9.3mm lift and up to 5500 rpm. Seat pressure is increased by 20% over stock.

*For closed-course race application only (see Important Note below).*

Fits '04~'10 Road Star models  
**SPD-5PX09-14-10** \$257.95

## 2. Competition Clutch Spring

Offers increased clutch capacity. Reduces clutch slippage and resultant heat build-up under heavy use.

### Stage III for 102 cu. in.

The spring rate is 20% stiffer than the stock spring for increased clutch capacity. Reduces clutch slippage and resultant heat build-up under heavy use. Designed to handle increase power output from Stage III configuration.

Fits '08~'10 models  
**SPD-5PX09-84-00** \$123.95

### Stage III for 98 cu. in.

The spring rate is about 7% stiffer than the stock spring for the 98 cu. in. engine to handle the increased power output from Stage III configuration.

Fits '99~'03 Road Star models  
**SPD-4WM09-84-00** \$69.95

### Stage IV for 98 cu. in. and 102 cu. in.

The spring rate is about 25% stiffer than the stock spring to handle the increased power output from Stage IV configuration.

Fits '99~'07 Road Star models  
**SPD-4WM09-84-10** \$113.95

## Competition Gasket Kits (Not shown)

### Stage III or IV for 102 cu. in.

Complete kit of gaskets necessary for installation of Stage III or IV components.

Fits '04~'07 Road Star models  
**SPD-5VN09-59-04** \$75.95
